# BATTERY PRODUCTION TECHNOLOGY BY teamtechnik

YOUR PARTNER FOR CUSTOMIZED TURNKEY SOLUTIONS

Thanks to its many years of experience, teamtechnik is today one of the leading providers worldwide of modular, flexible assembly and test systems. In the field of battery production technology, teamtechnik offers flexible system solutions for manufacturing battery modules and packs, central contacting systems, anodes, and covers for battery housings.

## Our Experience

**Customized and Turnkey Solutions**

## Your Benefits

- \_ Various automation levels: From start-up to high-speed to meet your production requirements
- \_ Cycle time of 0.5 sec can be achieved
- \_ A combination and connection of different platforms in the same line is possible for the most efficient line configuration
- \_ Integration of laser welding, induction welding, bonding, hot stacking and optical testing depending on the product design and requirement
- \_ Turnkey assembly and test lines can be provided by teamtechnik based on your specification and request

teamtechnik Group is one of the international market leaders for production technology and focuses on developing customized automation solutions for the automotive, the medtech, the solar and the energy storage industry. A proven area of expertise are assembly and test lines for electric drive units and e-mobility components.

teamtechnik worldwide

- \_ 900 Employees
- \_ Founded 1976
- \_ Part of Dürr Group since 2021
- \_ 6 Production sites
- \_ 13 Service locations worldwide
- \_ 28,000 sqm production areas
- \_ Revenue of 160 million Euros
- \_ Well over 4,000 production systems supplied

**Modular assembly and test system for flexible battery module production**
