SPARE PARTS AND ORIGINAL EQUIPMENT PACKAGES

Production systems made by teamtechnik are characterized by low maintenance requirements and high availability. Our spare parts management ensures that the correct spare part is quickly available in case of an emergency.

YOUR ADVANTAGES – SERVICES BY teamtechnik

Original equipment packages – ensuring your production system runs.

Production systems made by teamtechnik are characterized by low maintenance requirements and high availability. Based on our experience we have created original equipment packages designed to enable wear parts to be replaced quickly. These packages use original replacement parts only.

Spare parts service – Always well advised

From selection and design to installation of your spare parts: teamtechnik's experts are there for you at all times.

Spare parts logistics – for quick availability

In case of emergencies, every minute counts. At teamtechnik's service sites we stock original spare parts worldwide. We can also offer specific spare parts holding contracts (consignment stocks).

Spare parts optimization – always better

We assure longterm parts availability and arrange replacements for discontinued components. We also develop our spare parts continuously.

Individualization – a customized solution

We will be happy to develop an individual spare parts package with you. This will ensure that your manufacturing is uninterrupted and that you can access your spare parts straight away.

CONTACT US – We will be happy to assist you.
